CONSUMERS' COOPERATIVES REORGANIZED;
PLAN ROAD IMPROVEMENT

CONSUMERS' COOPERATIVES REORGANIZED -- Tikhookeanskaya Zvezda, No 96,
24 Apr 49

A decree of the Council of Ministers USSR of 15 December 1948 called for the amalgamation of rural and fishermen's consumers' cooperatives and the reorganization of cooperative agencies in Khabarovsk Krai. In 1948, the Kray consumers' cooperatives increased trade turnover 25 percent over 1947. Sales of silk, cotton, and woolen fabrics, shoes, salt, kerosene, and other products increased considerably over 1947. In Khabarovsk and Komsomol'sk, sales of meat increased 117 percent over 1947, butter 324 percent, and eggs 183 percent. Consumers' cooperative enterprises fulfilled the plan for production of consumers' goods 122 percent and exceeded the plans for procurement of furs and hides.

Results of the work of consumers' cooperatives in 1948, however, were not satisfactory. The year plan for retail trade turnover, including turnover in city cooperative trade organizations and public eating enterprises, was completed only 93.4 percent. The fishermen's consumers' unions, fishermen's cooperatives, and rural consumers' societies failed to complete plans for expansion of the trade system and assortment of goods and for transport of goods to regions of the Far North. Locally produced goods constituted only a small part of the total volume sold in 1948, since enterprises of cooperative industry have not been accorded sufficient attention and assistance.

Consumers' cooperatives in the kray also conduct State procurement of potatoes, vegetables, eggs, leather, and of meat and fowl in the northern regions. Only 78 percent of the 1948 procurement plan was completed. The Kamchatka and Okhotsk cooperatives, in particular, have not organized this work efficiently.

TO IMPROVE ROADS AND BRIDGES -- Tikhookeanskaya Zvezda, No 101, 30 Apr 49

The 1949 plan for improvements in the city of Khabarovsk provides for asphaltting of 70,000 square meters of streets and squares, paving of 6,000, and repairing of more than 10,000 square meters of cobblestone roads. New bridges will be built and existing ones repaired. The Tikhookeanskiy highway from the city to the flotilla base will be asphalted soon. The road between the railroad siding at the Plant imeni Kaganovich and the main railroad trunk line will be paved with petroleum asphalt.

A water and a boat station will be built on the shores of the Amur. The plan also calls for completion of 56 multistory houses with a living area of nearly 40,000 square meters, construction of 420 individual houses, a school, a kindergarten, polyclinic, three FZO and trade schools, and two bath and laundry combines. Construction of a TETs (heat and power plant) has begun in the city.
